

# Nicholas A. Thomas

(469) 465-9656 | nicholas18thomas@gmail.com | <https://www.linkedin.com/in/nicholas18thomas/>

**Data Scientist** with experience building machine learning pipelines, ETL infrastructure, and statistical modeling for business decisions. Owns projects end-to-end, from raw data to executive-ready insights, while working effectively across technical and non-technical teams.

## EDUCATION

### Bachelor of Science Information Systems

Apr 2026

Data Science Emphasis | Minor in Statistics | STEM-Designated Technical Program

Brigham Young University - Marriott School of Business, Provo UT

3.64 GPA

- Student Athlete on BYU Dunk Team – 300+ hours of community service through CougarBuilt Initiative
- Member of Association for Information Systems
- Coursework: Machine Learning in Python, Predictive Analytics, Database Systems, Statistical Modeling, Applied R Programming, Strategy and Economics

## TECHNICAL SKILLS

**Programming:** Python, R, SQL, Git, Jupyter Notebooks, Pandas, NumPy, Scikit-learn, Matplotlib, Streamlit

**Data & Analytics:** Power BI, Tableau, PostgreSQL, Excel, DataRobot

**Other Technology:** AWS (EC2, S3, RDS), Docker, Supabase

### Project Experience:

- Deployed an ML recommendation pipeline using collaborative and content-based filtering across 50+ products
- Developed a Python package with API-based data collection, Streamlit app, and Quarto documentation
- Tuned XGBoost, K-Means, and SVM models across multiple Kaggle competitions, ranking top 5% in each

## EXPERIENCE

### Data Analyst

Apr 2026 – Present

United Way, Provo, UT

- Engineered an ETL pipeline integrating 18+ data sources into a unified Power BI model, standardizing messy, inconsistent data across previously siloed systems
- Built dashboards used by 20+ staff for budget decisions, program tracking, and funding presentations
- Delivered a production-ready Power BI system in under a month, from stakeholder requirements to deployment

### Data Science Consultant (Contract)

Mar 2026 – Apr 2026

Creeda, Provo, UT

- Built a classification model on QuickBooks API data, which categorized P&L transactions across 40+ categories at ~90% accuracy
- Architected a replicable pipeline now live as the foundation of Creeda's product
- Delivered a Data Science project lifecycle from EDA through model deployment in under a month

### Teaching and Research Assistant (Machine Learning)

Sep 2025 – Apr 2026

BYU Department of Information Systems, Provo, UT

- Conducted comprehensive research and statistical analysis of privacy data in Python for faculty publication
- Contributed to publication *Privacy in Google Play Apps* (AMCIS 2025 – Emergent Research Forum)
- Taught coursework in Machine Learning Pipelines in Python, Data Science Processes, ETL, and AI Prompting

### Czech Language Instructor

Aug 2022 – Sep 2025

Missionary Training Center, Provo, UT

- Taught 75+ students Czech and achieved a 92% target proficiency rate prior to in-country placement
- Designed curriculum to teach the Czech language with cultural and historical context, adopted program wide

## OTHER ACHIEVEMENTS

- Cosmo the Cougar, BYU's Mascot – 4 years, 2 Fox Big Noon Kickoff appearances, 200+ community events
- Eagle Scout – Boy Scouts of America
- D2D Solar Sales Rep – 60+ leads, 16 closes
- Volunteer Mission, Czech Republic – led 70+ missionaries, professional Czech fluency (2019-2021)
